(g Dean & HOD, Pathology Department)

**Q.1 If AURA was conducted in your time, which star would you want to perform at your college?**  
Lata Mangeshkar :)

**Q.2 Did you happen to come across any student's Instagram handle and what did you think?**  
I enjoyed scrolling through, my daughter used to show me the AURA promotional reels and I thought that they were very well made. I didn't think anything was objectionable as such. If I was your age, I'd probably be posting similar stuff on IG.

**Q.3 A side of you that you wouldn't want anyone to know?**

Well I'm a 'Bollywood buff'. I was up to date on who's going out with who and who got married. I'd read magazines like 'Stardust' (similar to femina) cover to cover and really enjoy it.

**Q.4 If not a medical profession, then what would you like to pursue as a career?**

I would like to be a businesswoman. I was always keen on being a CEO. I should have taken up commerce, but I did not. That's probably why I'm so into Shark Tank.

**Q.5 GENZ slangs and their meanings**

Oh god I wonder what you all will ask me-

Flex- I just know flex your muscle.

Slay- To compliment someone like You slayeddd your catwalk.

GOAT- Greatest of all time (like AURA)

Ghosting- Stalking like I like you and I'm following you, I totally hit a tangent I guess.

Simp- Simp?? I don't think I could have ever known what it means, had you all not explained it to me.

**Q.6 What difference did you feel in this year's management as compared to last year?**

Initially I thought that "yaar yeh log kaise karr payenge" but later I saw that each one of you not only just worked hard but also always maintained a certain poise and had a calm demeanor throughout the event, I must compliment Jatin especially as he always had a smile on his face and would accommodate everyone's needs and demands accordingly. The kind of responsibility you guys take at such a young age is amazing.

**Q.7 What is your take on college romance and how was it like in your time?**

Its not like romance is more now and it was not there before. In my time we didn't have the same technology that We could just text anyone and talk to them all the time. We used to talk "aankhon se ishaare karke". As long as the couple behaves within limits on campus and according to the conduct of a classroom, I don't see any problem with it. Afterall if it works out now then they might even end up being lifelong partners.

**Q.8 What are your views on college fashion nowadays, do you think it should be more professional?**

Yes, I do find sometimes things could be more professional considering that you all are going to be doctors and I wouldn't want any of you to get in trouble with a patient because of that.

The choices you make with your attire should align with your profession.
